

Information about transfer of activities to the AVK Group

It is with great pleasure that we are now able to inform our customers, suppliers and other cooperative partners that on Monday 26 April 2010 the AVK Group took over the activities of Klindt Plastindustri A/S in liquidation. Employees and production will continue in the newly established company of AVK Plast A/S.

AVK Plast A/S is 100 per cent owned by AVK Plastics B.V., a plastics company situated in the Netherlands. Thus, AVK Plast A/S has become a part of the AVK Group, whose parent company is AVK Holding A/S in Galten near Aarhus, Denmark. This ownership implies many opportunities for synergies for AVK Plast A/S, including opportunities for exchanging knowledge and competence as well as enhanced opportunities for developing new products in cooperation with our partners.

The AVK Group comprises approximately 50 companies worldwide and has around 2,200 employees. Its total turnover exceeds DKK 2 billion.

Poul Erik Schmidt, who was a co-owner of Ripladan A/S until Klindt Plastindustri A/S was founded, has played an active part in ensuring the company's continued operations. Poul Erik is now director with primary responsibility for sales and purchasing at AVK Plast A/S.

Henrik Lund-Olesen is the new managing director of AVK Plast A/S. Henrik comes from a position as managing director of AVK Valves (Anhui) Co., Ltd. in China.

Please be informed that our telephone numbers are unchanged, but that the e-mail addresses will be changed soon. All partners and liaisons will be informed about any new contact information.

We look forward to retaining and enhancing our fine relations in the future.

Further information about the AVK Group and AVK Plastics B.V. can be found at www.avkplastics.com and www.avkvalves.com.

Best regards

Henrik Lund-Olesen
Managing Director
